Online Training

INTRODUCTION TO REGULATION OF FLEXIBILITY IN THE POWER GRID

February 21 – March 11, 2022

Including
a **Workshop on Modelling**
with **PLEXOS**
BY ENERGY EXEMPLAR

Participants will learn:

- **an in-depth understanding of the different sources of flexibility in the power system, market trends, flexibility services, barriers to flexibility and related regulatory solutions.**
- how regulation can support flexibility in the power system
- how the regulatory and legal framework can be setup for this purpose

Moreover:

- The material covers both transmission and distribution flexibility issues and explains the importance of flexibility in operating the power system of today and the future.
- The course is designed to be highly interactive (live sessions and consultations) and to ensure active engagement of participants via weekly tests and the final paper to be developed by each of them.

The event website is: <https://erranet.org/single-event/flexibility-in-the-power-grid-online-training/>

REGULATORY TOOLS FOR CAPITAL EXPENDITURE (CAPEX) REVIEW AND ASSESSMENT

The ERRA Regulatory tools for Capital Expenditure Review and Assessment online course is a step-by-step practical overview of the measures regulators can employ to review and assess the reasonableness of capital expenditure projects proposed by regulated licensees.

Topics to be discussed:

- Integration of Capital Expenditures in the Price Control
- Methods for Assessment of Capital Expenditures
- Cost Benefit Analysis – Role and Application
- Mathematical Techniques for Investment Decisions
- Assets Utilisation, Stranded Assets and Regulatory Policy

THANK YOU FOR YOUR ATTENTION!
