

# Update on ERRA activities

Valéria Farkas  
ERRA Secretariat

# Meetings – Dec/Jan, online

---

NG COM: December 2

RE COM: December 7

EMER COM: December 8

CP WG: January 24

# Next Meetings – Feb/Mar?

---

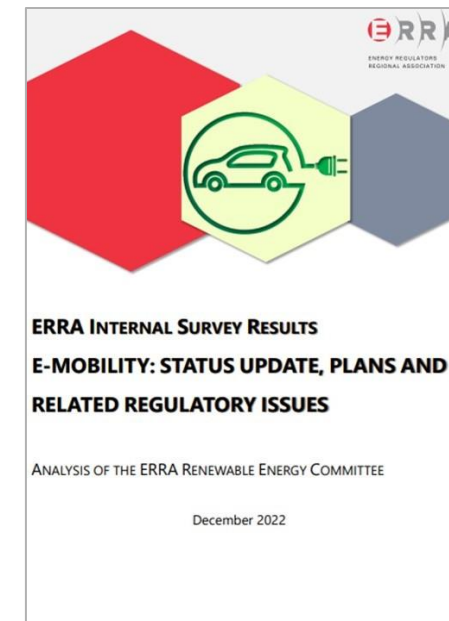

Dates TBD – RE COM most likely in late February

# Recent publications

- NG COM: Research paper on TSO Unbundling & Certification – **November 11**
- RE COM: E-mobility: Status update, plans & related regulatory issues – **November 30**
- NG COM: Research paper on Fundamentals of Hydrogen – **December/January**

# Upcoming Training

This course is specifically designed for experts working in the field of electricity markets who want to understand and learn more about a very important function performed by transmission system operators and market players: balancing electricity markets and the involved ancillary services.

This function plays a crucial role in ensuring security of supply and has an important effect on the final cost to consumers. Integration of national balancing markets could contribute to enhanced security of supply and to decreasing electricity prices so there is a strong argument for developing cross border balancing markets.

**WEEK 1: BUILDING BLOCKS IN A BALANCING MARKET**

**WEEK 2: NATIONAL vs. REGIONAL BALANCING**

**Case study 1: The new South African Power Pool Balancing Market**

**Case study 2: Georgian Balancing Market**

Credits awarded upon successful completion of this course: 5 CER credits.

## COURSE FACULTY TEAM

**Mr. Hans-Arild BREDESEN**

*Course Director*

CEO  
Bredesen Consulting  
Norway

**Dr Graeme CHOWN**

*Course Speaker*

Managing Director  
Chown and Associates  
South Africa

**Mr. Andreas POINTVOGL**

*Course Speaker*

Managing Partner  
Omnia-energy  
Germany

# Training calendar 2023

- **Setting the Weighted Average Cost of Capital (WACC)**
  - **March 6-8** // hybrid in Istanbul, Türkiye
- **Regulatory Aspects of Development of Mini-Grids**
  - **May 8-10** // location TBD
- **Regulation in Energy Transition**
  - **May 22-26** // hybrid in Budapest, Hungary
- **ERRA Summer School: Introduction to Energy Regulation**
  - **June/July TBD** // Budapest, Hungary
- **Understanding the Basics of Energy Trading - TBC**
  - **September**
- **Power System Basics for Non-Engineers - TBC**
  - **November**

Hybrid Training

**SETTING THE WEIGHTED AVERAGE  
COST OF CAPITAL (WACC):  
A PRACTICAL GUIDE**

March 6 – 8, 2023 | Istanbul, Türkiye

# Other events

---

- **Webinar: Electrification in Africa III**
  - Late February/Early March TBD // online
- **World Forum for Energy Regulation**
  - March 21-24 // Lima, Peru  
*(some sessions will be live streamed)*
- **ERRA General Assembly and concurrent meetings**
  - April 27-28 // Warsaw, Poland

**THANK YOU  
FOR YOUR ATTENTION!**
