

„Guarantees of origin the topic of the year 2023“

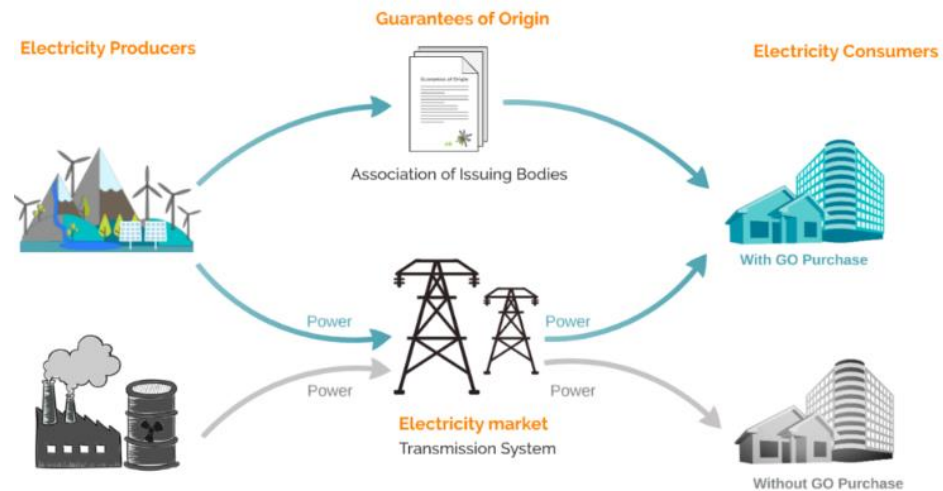

**ERRA Renewable Energy Committee Virtual Meeting
December 7, 2022**

Jana Vášová

GO 2023 - Introduction of the task

- Aim: An overview of the Current status, Plans and Related Regulatory Issues of GO systems for all energy vectors.
 - Gain an overview of the tools already in place or foreseen for tracking energy from production to final consumption in each Member State, and the possibilities for trading them, including an overview of the regulatory frameworks in place.

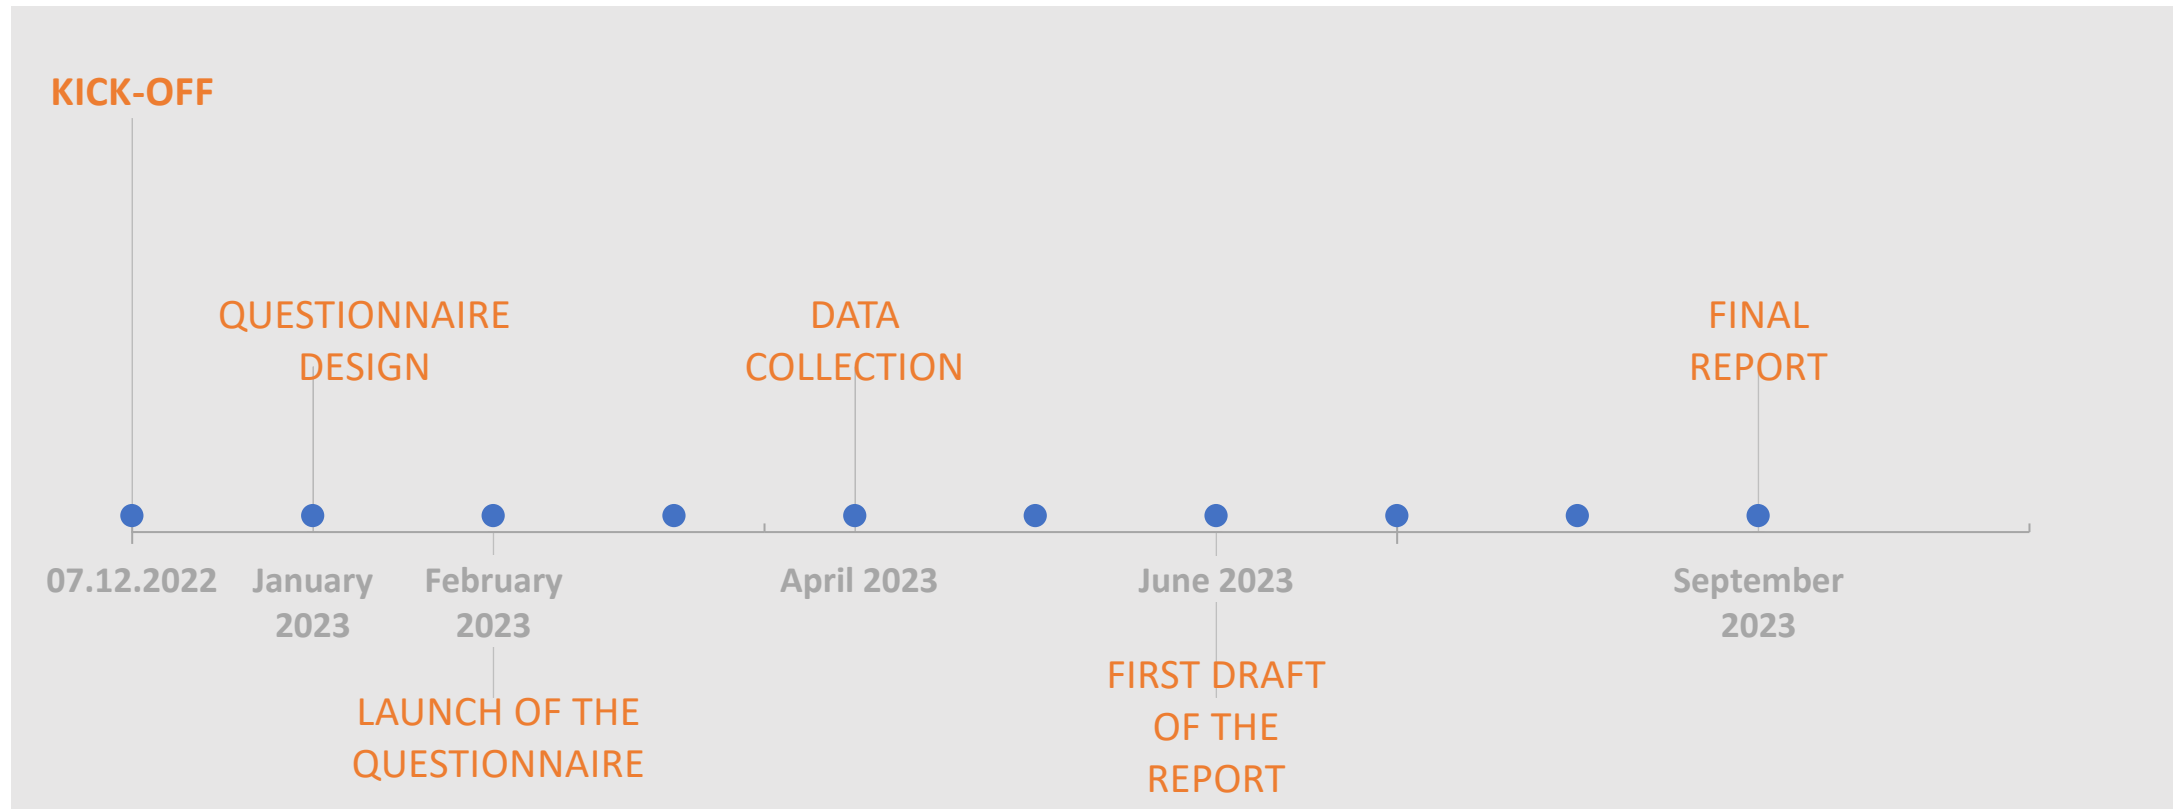

GO 2023 – Next Steps 5P

- Next steps:

1. Presentation of the topic – kick-off
2. Preparation of the questionnaire
3. Publication of the questionnaire - Launch of the questionnaire
4. Processing - data gathering and the start of the work on drafting the report
-
5. Publication of internal report

GO 2023 - Time line

Suggestions for the subareas on which questions will be focused I

- **Legal/ regulatory framework of GO**
 - Do you have a GO system in place and what does it look like?
 - For which forms of energy?
 - electricity (all/various renewables, ll/various forms of storage, all/various conventional, nuclear)...
 - gas/hydrogen forms grid/CNG/LNG
 - heating and cooling?
 - Aim /reasons/justification for GO? How and what are the GOs used for?
- **Role of the National Regulatory Authority regarding GO**
- **Issuing body**
 - Who issues GO?
 - For what? -energy produced, energy fed into the grid or something else?
- **Energy production**
 - What is the approach to GOs of energies that have received support (OPEX/CAPEX) addressed?

Suggestions for the areas on which questions will be focused II

- **Domestic/international trade with GO**
 - Market mechanisms/allocations...?
 - How is the GO price/value determined?
 - Are GOs transferred to and from other countries?
 - Are there any auctions for GOs?
- **End customer /final consumption**
 - Industry/household - how much awareness, benefits...?
- **Barriers to the development of GO**
- **Current and planned future roll-out of GO**

Suggestions...

Is there any special sub-topic within GO that would be of interest to you?

Cooperation on the topic or suggestions for the question is very welcome!!!

THANK YOU FOR YOUR ATTENTION
