Electricity Markets and Economic Regulation Committee

- **June 8 (online)**

Renewable Energy Committee

- **June 14 (online)**

Meeting of the ERRA Liaison Officers

- **July 5 (hybrid in Budapest, Hungary)**

# INTRODUCTION TO ENERGY REGULATION

June 27 – July 1, 2022 | Budapest, Hungary

2022 marks the organisation of ERRA’s 20th Summer School. It is ERRA’s flagship training course providing a complete **insight into regulation of restructured electricity and gas industries**. Apart from covering basic **regulatory responsibilities** such as **tariff setting**, it will cover **new market trends**, in particular the integration of renewables, energy transition and the related regulatory tasks in hybrid format. This comprehensive training format has been a trusted source of introductory energy market knowledge for 20 years.

Day 1	Day 2	Day 3	Day 4	Day 5
<b>ROLE AND FUNCTIONS OF THE REGULATOR &amp; REGULATORY CHALLENGES</b>	<b>PRICE AND TARIFF REGULATION IN THE ELECTRICITY MARKETS</b>	<b>COMPETITION AND REGULATION IN ELECTRICITY MARKETS</b>	<b>COMPETITION AND REGULATION IN THE GAS MARKETS</b>	<b>REGULATION IN ENERGY TRANSITION</b>

# INTRODUCTION TO BALANCING MARKETS

September 26 – October 7, 2022

This course is specifically designed for experts working in the field of electricity markets who want to understand and **learn more about a very important function performed by transmission system operators and market players: balancing electricity markets and the involved ancillary services.** This function plays a crucial role in **ensuring security of supply** and has an important effect on the final cost to consumers. Integration of national balancing markets could contribute to enhanced security of supply and to decreasing electricity prices so there is a strong argument for **developing cross border balancing markets.**

## WEEK 1

September 26 - 30

- Introduction: Where does balancing market fit in the overall market concept
- Definitions: Balancing vs. Ancillary Service
- Key Building Blocks in a Balancing Market
- + **International Examples**

## WEEK 2

October 3 - 7

- National vs. Regional Balancing
- Regulatory Aspects of Balancing Services
- The New SAPP Regional Balancing Market
- + **National Balancing Market Case Study**

**October 26-27**  
**Tbilisi, Georgia**

Organised by:

Co-funded by:

In partnership with:

Theme: *How to accelerate the clean energy transition through investments into renewable energy*

Topics: Role for citizen investments in energy transition, financing RES investments, new technologies

**October 28: GNERC 25th Anniversary Celebration**

# Venue for the next CP WG Meeting (Sept/Oct)?

---

As per the Committees and Working Group Policy:

## **Section 3. Special Conditions for the Functioning of the Working Group**

The Working Group is an additional body, which existence has been agreed upon by the Presidium knowing that the Secretariat's resources currently allow to sustain a limited number of working bodies. For this reason, the Working Group will work with limited support from the Secretariat. The Secretariat can provide limited assistance and funding for the meetings organized in Budapest (organization, venue). For the meetings outside Budapest the Working Group has to self-manage and self-fund all organizational issues.

**In case your organization is ready to host the CP WG meeting,  
please contact the ERRA Secretariat. Thank you!**
