Price Development in 2022

**Price development between
1 Jan 2022 – 15 Sep 2022**

Prices in TL/1000 m³

Price formation was influenced by price increases in the international markets and the currency depreciation.

Price Control Measures and Consumer Support

- Regulatory decisions on metering and billing during Covid-19 period are no longer in effect.
- Support to vulnerable consumers given by the Ministry Family and Social Services are ongoing.
- Response to price hikes in gas market are managed at wholesale level.
- Price increases are reflected to household and small commercial consumers to a limited extent.
- Power generators and the big industry bears the price increase burden.
