

„Guarantees of origin the topic of the year 2023 “

Jana Vášová,
ERO, Czech Republic

Current status of the GO project

Questionnaire

Survey among members of the ERRA Renewable Energy Committee:

Guarantees of Origin for electricity and gas and cooling/heating, Setting the value of Guarantees of Origin, Green hydrogen Certificate

Country:

Organization:

Your name:

Your E-mail:

		Energy-specific questions		
		Electricity:	Gas:	Heating and cooling:
1.	Legal/ regulatory framework of Gas			
1.1	Do you have a GOs system in place?			
1.2	If yes, when was it introduced?			
1.3	For which forms of energy?			
1.4	If other, please specify briefly.			
1.5	What purpose can / must the GOs be used for?			
1.6	If other, please specify briefly.			
1.7	Is there an obligation in your country for some entities to purchase or cancel GOs?			
1.8	Which entities? Please specify briefly.			
1.9	What is the standard granularity of GOs?			
1.10	If other, please specify briefly.			
2.	Role of the National Regulatory Authority regarding the Gas			
2.1	What is the role of the National Regulatory Authority regarding the GOs?			
2.2	If other, please specify briefly.			
3.	Issuing body			
3.1	Who is the issuing body for the GOs?			
3.2	If other, please specify briefly.			
3.3	For what?			
3.4	If other, please specify briefly.			
3.5	In what form are the GOs issued?			
3.6	If other, please specify briefly.			
4.	Energy production that receives public support			
4.1	Are there any restrictions on GOs for energy which gains public support?			
4.2	If so, which ones?			
4.3	If other, please specify briefly.			
4.4	If the price value of GOs is determined, then how? Please specify briefly.			
4.5	Can GOs be traded internationally if they gain public support?			
4.6	If other, please specify briefly.			
5.	Domestic/international trade with GOs			
5.1	Are the GOs traded/transferred to and from other countries?			
5.2	Are there any restrictions on these trades/transfers?			
5.3	If yes, please specify briefly.			
5.4	Are there any auctions for GOs?			
5.5	If yes, please specify briefly who may be the seller (e.g. manufacturer, state, supplier, trader and who is the buying party...)			
		Energy-neutral questions		
6.	Energy conversion			
6.1	Are there any rules for the use of the GOs in the energy conversion (e.g. green hydrogen production using renewable electricity)?			
6.2	If yes, please specify briefly.			
7.	Disclosure and Control mechanism			
7.1	Are the energy suppliers obliged to disclose the fuel mix of the supplied energy?			
7.2	If yes, does it have to be demonstrated through the GOs?			
7.3	Is there any other obligation of the energy disclosure?			
7.4	If yes, does it have to be demonstrated through the GOs? Please specify briefly.			
7.5	Is there any entity or control mechanism responsible for verifying such disclosure claims?			
7.6	If yes, please specify briefly.			
7.7	How does the control mechanism work?			
7.8	If yes, please specify briefly.			
7.9	Are there any other similar certificates that can be used to prove the origin of energy? (e.g. Proof of Sustainability (PoS) - in transport)			

**THANK YOU
FOR YOUR ATTENTION!**
