

New phenomena in the energy markets and their possible implications for consumers and regulators

- emergence of aggregation, energy communities, energy sharing.. -

Roundtable Discussion

future report, topics, questionnaire, deadline, drafters

Martin Martinoski, MBA

**Energy and Water Services Regulatory Commission
North Macedonia**

Emergence of:

- Prosumers / Citizen Energy Communities
- Aggregation
- Energy sharing

Utilization of RES through the new available and affordable technologies enable citizens/consumers to become proactive players in the energy markets.

Their role as energy producers will actively contribute to the energy transition.

Detecting key features:

- Presence of legal frame
- Competent authorities
- Current and/or potential challenges for Regulators
- Technical characteristics
- Major obstacles
- Practical examples

Future report, deadlines, drafters

- Draft Questionnaire – May 2023, Martin Martinoski
- Final Questionnaire – June 2023, NRAs feedback
- Answering Questionnaire – June-Aug 2023, NRAs
- Preliminary Findings and Draft Report – Oct 2023, Martin +...
- Final Report, December 2023, Martin +...
