Energy Transition Task Force (ETTF)

- The ETTF shall be established **by the end of February 2023** and will have a 2-year mandate.
- The Team consists of minimum of 5 ERRA member regulators and coordinated and managed by the ERRA Energy Transition Expert.

General Purpose:

- ✓ Map the practices of regulators on energy transition.
- ✓ Provide analyses of innovative approaches towards regulation of novel, low- or no-emission energy sources and solutions.
- ✓ Create an energy transition platform/hub/knowledge center.
- ✓ Follow international trends via independent research and keeping the ERRA community informed.
- ✓ Facilitate bilateral or multilateral information exchange on subject matter among members.
- ✓ Assist other ERRA working groups and committees in their energy transition related workstreams.
- ✓ Cooperate with international frameworks/cooperatives aiming at energy transition facilitation including, but not limited to, the Regulatory Energy Transition Accelerator (RETA).

Coverage: RES roll-out and deployment policies; the new roles in the transformed energy system & the importance of system operators and grid development; energy storage; digitalisation; transition fuels; electrification; other key technologies; hydrogen & renewable gases
