

Benchmarking Study - Status-quo of Hydrogen Among NG COM Members

Mehmet KÜRKÇÜ
EMRA, TR

Outline

- Background
- Tentative Scope
 - Elements of status-quo in NG COM members
- Proposed Method

Background Work

- NG COM worked out its first deliverable on hydrogen in March 2023.
- The paper,
 - outlined the production methods and classification of hydrogen,
 - Summarized sample hydrogen strategies,
 - Introduced theoretical framework of hydrogen regulation.

Tentative Scope

- Elements of status-quo in NG COM Members

Existing infrastructure and volumes

Existing strategies

Pilot/demonstration projects

Regulatory frameworks

Proposed Method

- As in past benchmarking studies of NG COM, the proposed method is questionnaire.
- The terminal deliverable of the work plan item will be a benchmarking report.

THANK YOU FOR YOUR ATTENTION!

Your input will be highly appreciated!
