ERRA Regulatory Research Award Paper

The purpose of the ERRA REGULATORY RESEARCH AWARD is to present the latest research in the energy sector, particularly related to energy regulation and development of energy markets and reflecting on the most up-to-date topics in the industry.

The Candidates may choose from among the following topics:

- 1) *Tariff design for demand-side flexibility*
- 2) *Consumption rebound from low-cost renewables and effects on energy efficiency targets*
- 3) *Energy-only markets and regulatory lessons from the recent energy crisis*
- 4) *Cost of financing, supply chain disruptions and impacts on RES auction prices*
- 5) *Policy considerations and methodologies in setting a maximum strike price*
- 6) *From ducks to cliffs: reserve requirements and lessons for regulators*

Women in the Energy Sector – My Career Story Webinar

- The purpose is to learn from inspiring stories of leading women in the energy industry with special emphasis on milestones, pitfalls of their careers and recommendations to others.

Angeliki Mourtzikou
Director, Wholesale Markets and Interconnections
Regulatory Authority for Energy (RAE), Greece

Andrea Lenauer
Interviewer / Senior International Relations Advisor
E-Control, Austria

Webinar Series

**WOMEN IN THE ENERGY SECTOR
MY CAREER STORY**

June 13, 2023 @ 14:00 CEST (GMT+2)

Training calendar 2023

- **ERRA Summer School: Introduction to Energy Regulation**
– June 19-23 // Budapest, Hungary

- *Keynote Address by Mr. Victor PARLICOV, H.E. Minister of Energy, Republic of Moldova*
Former Chairman of ERRA

- **Regulation of Energy Storage**
– September 11-29 // hybrid in Budapest, Hungary

- **Fundamentals of Water Utility Regulation**
– October 25-27 // Budapest, Hungary

Summer School: June 19-23

ERRA

Hybrid Training

SUMMER SCHOOL: INTRODUCTION TO ENERGY REGULATION

June 19 – 23, 2023 | Budapest, Hungary

After attending the ERRA Summer School you will return back to work with:

- the **role of regulators** and familiarity with the **theory and institutions of regulation**
- advantages and disadvantages of the various wholesale market design
- principles of **calculating prices and tariffs** in the energy sector
- **regulatory roles** in increasing competition levels in wholesale energy markets
- the **value chain, market structure** and **regulation of natural gas markets** – including LNG markets
- challenges of **integrating renewable energy**, including **PPAs** and auction designs
- understanding impacts of the **energy transition** on energy regulators
- introduction to **grid development and grid management**

Regulation of Energy Storage – Online Training

The course aims to provide participants with the necessary understanding on:

- **how to structure regulation for energy storage across different power markets.**
- It covers energy storage in its multiple forms, **with a technology-neutral approach** when it comes to regulatory recommendations around storage.
- It provides participants with the necessary understanding of energy storage technologies **both at utility and residential levels**, and with the ability to consequently define regulatory measures that ensure energy storage in its multiple forms can be deployed in the power market, and **benefit consumers across multiple dimensions**, at either **wholesale power market level, or at the level of ancillary services** to the power grid.

ERRA 20TH ANNUAL CONFERENCE

(FORMERLY CALLED ERRA ENERGY INVESTMENT AND REGULATION CONFERENCE)

Hosted by the
**Hungarian Energy and Public Utility
Regulatory Authority (MEKH)**

**Conference website is available,
visit for:**

**First Confirmed
Speakers**

**Venue &
Logistics**

Registration

The proposed theme of the Conference is: “***En route to sustainable regulation under new market paradigms***”.

The Conference shall cover **topics** such as:

- 1. Energy crisis impacts on energy sector’s architecture*
- 2. Regional Energy Outlooks within New Market Paradigms - in and out of Europe*
- 3. Anniversary session on Novel Directions in Energy Regulation*
- 4. Regulatory mandates for Energy Transition under New Market Conditions*

The Secretariat proposes to launch a publication related to the Conference theme.

The Secretariat proposes to extend the Conference program with the poster exhibition related to the ERRA Regulatory Research Award.

WFER in Peru

World Forum for Energy Regulation

- New dates: **August 22-25, 2023**
- Location: **Lima, Peru**

VIII WFER

PERÚ 2023

- Website: <https://www.wferperu2023.com/>

Member Inquiry – Request by PSRC Armenia

Whether the planned quantity and emergency maximum quantity of electricity supply to subscribers in the distribution networks operating in your country are defined or not. If yes, please indicate the legal act that defines it (and if possible send it), please also indicate the maximum number of interruptions (monthly, quarterly or annually) and the measures of responsibility applied to the distributor in the event of violation.

**THANK YOU
FOR YOUR ATTENTION!**
