

# **Status-quo of Hydrogen Utilisation in NG COM Member Countries**

**GEORGIAN NATIONAL ENERGY AND WATER SUPPLY  
REGULATORY COMMISSION (GNERC)**

**ERRA Natural Gas Markets and Economic Regulation Committee**

January 25, 2025 / 18th Meeting (Online)

*Does your country/organization have a strategy regarding hydrogen?  
If the strategy is in place please outline its main elements.*

- *What are the main incentives and what sectors do they address? –A draft implementation has been prepared to address hydrogen economy development measures in all sectors in Georgia.*
- *Are there any targets set to achieve in the nearest future? - Currently, there are no set targets for the nearest future, indicating that Georgia is in the early stages of planning.*
- *Please list the responsible institutions - The Ministry of Economy and Sustainable Development (MOESD) is the primary governmental body overseeing hydrogen economy development. In 2022, the MOESD established a committee dedicated to supporting the development of hydrogen energy.*

# Regulatory Level

---

- *Are there any plans to develop the Hydrogen Market and/or the Regulatory Framework? – Georgia has an obligation to transpose Directive EU2018/2001, adapted by the Ministerial Council Decision 2021/14/MC-EnC. According to the directive, the contracting party is required to issue Guarantee of Origin (GO) for green hydrogen.*
- *What has been the level of exposure of the regulator towards hydrogen? – GNERC has demonstrated its commitment to hydrogen development by having a representative in the hydrogen committee.*
- *Are there any completed or ongoing tasks/milestones? – not in the regulatory authority*

# Industry/Market Level

---

- *Are there any Pilot Projects developed or in development? - N/A*
- *What is the general interest in developing hydrogen networks/markets in your country from the supply side and how many companies have been involved (in rough terms)? – N/A*

**THANK YOU  
FOR YOUR ATTENTION!**
