Structure

When was the last DSO tariff approved (for a DSO that has significant share in the market) – IN 2022

The Commission calculates natural gas tariffs with the **Natural Gas Tariffs Calculating Methodology** approved by the Commission's Resolution N33 of December 25, 2014.

In 2022 The Commission introduced significant changes to the tariff methodology - The tariff regulatory period has been extended to 5 calendar years, instead of the previous 3 years.

According this, in December 2022 The relevant tariffs were approved by The Commission For **20** licensed enterprises for the 2023-2027 tariff regulatory period. In 2023, the tariff of **1** licensees was adjusted.

Structure

Is set tariff fixed? If yes what proportion between fixed and variable component? If not specified, why not?

In Georgia Natural Gas tariff is fixed.

It's Volume Based and all components - costs included in the tariff calculation are fixed.

*Are there any changes planned in tariff structure?*

Currently the commission is working on different tariff systems, and if necessary, there will be a change in the existing tariff structure
