

# Digital Transformation Effect on the Economics of the Gas Market

**Roundtable input by Republic of N.Macedonia  
Energy Regulatory Commission**

- *Are some digitalization targets set from by the government side?*
  - *There is no official digitalization targets*
- *What is the digitalization level in TSO and DSO side? Are there any official indicators to measure it (by the regulator/government)?*
  - *There are no official indicators to measure the digitalization level. The TSO has the capacity to read the meters of the largest consumers remotely.*
- *What is the share of smart meters? Are there any benefits to system operators and gas market for smart meter roll-out?*
  - *There are no smart meters installed yet*
- *What is the cost & efficiency gain?*
- *Are there any cybersecurity measures in place?*

**THANK YOU  
FOR YOUR ATTENTION!**
