

Session I:

SAFEGUARDING ENERGY TRANSITION GOALS

- To implement short, medium and long term energy development plan.
- To utilize renewable energy sources.
- To promote energy efficiency and conservation.
- To promote research and development.
- To formulate energy pricing.
- To implement carbon neutrality.

U Moe Thu Aung

Ministry of Energy

**To implement short, medium and long term energy development plan
(HC, Solar, Wind, Hydro)**

**To utilize renewable energy sources.
(Solar, Wind, Tide, Hydro)**

**To promote energy efficiency and conservation.
(Building, Industrial, Energy Intensity Reduction)**

**To promote research and development.
(New Technology able to reduce CO2 emission)**

**To formulate energy pricing.
(Affordable energy price)**

**To implement carbon neutrality.
(Reduce CO2 emission, Plantation)**
