22ND ERRA Annual Conference

Progressing Energy Transition via
Effective Policies and Regulation

POST CONFERENCE ERRA REPORT 2025

5-6 May 2025

Muscat, Oman

#ERRAConference2025

“Today we meet at a time of uncertainty—global energy signals are mixed, and we may be witnessing the first real crisis in the energy transition. While some countries backtrack on renewables and energy companies delay decarbonization, the underlying risks to fossil fuel demand haven’t changed. The key question remains: how long will this renewed momentum for hydrocarbons last?”

22ND ANNUAL CONFERENCE

Event Overview

Hosted in Muscat, the Sultanate of Oman, from 5-6 May the ERRA 22nd Annual Conference was convened with the key theme of “Progressing Energy Transition via Effective Policies and Regulation” through 2 days of presentations and panel discussions.

The combination of 16 sessions, round of presentations and the panel discussions addressed numerous topics such as the evolving challenges and opportunities in energy regulation and transition, grid integration and management, transition fuels and market reforms, as well as the solar rates and support schemes.

This conference welcomed 350 participants including ministers, CEOs, policymakers, investors, consultants and academics, 150+ international attendees, 38 speakers to engage in strategic dialogue on policy and regulatory developments, and to map a way forward for the energy transition in ERRA regions including Asia.

Countries Represented

The conference was attended by the delegates of 50+ countries and organization, showcasing ERRA's outreach and growing network all around the world.

Opening Ceremony

The ERRA Annual Conference 2025 commenced with a formal opening ceremony on May 5 with His Highness Sayyid Asa'ad bin Tariq Al Said, Deputy Prime Minister for International Relations and Cooperation Affairs and Special Representative of His Majesty being the Guest of Honour.

The opening remarks were delivered by H.E. Dr Mansoor bin Talib Al Hinaï, Chairman of the APSR Oman, emphasizing the country's commitment to regional cooperation and regulatory excellence. Ms. Andrijana Nelkova-Chuchuk, ERRA Chair and representative of the ERC North Macedonia, then addressed the audience, underlining ERRA's role in promoting regulatory dialogue and knowledge-sharing across member countries.

As the ERRA Conference was convening for the first time in the Gulf region, the opening session was devoted to exploring the Gulf region's energy sustainability, allowing the policymakers and regulators to compare their experiences on the progression of national energy transitions and discuss strategic interconnectivity prospects.
